PETROLEUM
REFINER

the magazine that's specialized for men in refining, natural gasoline and petrochemical engineering, operations and management

ONE GLANCE through this annual index will show you why our magazine, PETROLEUM REFINER, is read by more men in the refining, natural gasoline and petrochemical branches of the oil industry than *any other* oil publication. These men know they can depend on it to keep them fully informed on the many new process developments and improvements and of the latest money and time saving techniques in maintenance and operation. With our newly expanded editorial staff, PETROLEUM REFINER can promise even better coverage in the future.

THE GULF PUBLISHING COMPANY
